Paul-Heyse-Strasse 29
80336 München (DE)

(54) **Apparatus, system and method for remote operation of a mobile communication device**

(57) Method, system, and device for remote operation of a wireless communication device. The method (100) for remote operation of a wireless communication device using an accessory involves establishing (110) a communication channel between the accessory and the wireless communication device, providing (120) output to a user on the accessory, receiving (130) user input on

the accessory, processing (140) the user input and generating (150) control signals for transmission to the wireless communication device to initiate (160) one or more actions on the wireless communication device. The accessory comprises a touchscreen (210) for presenting information to a user and receiving user input. The accessory may optionally be a hinged accessory (500) with a dual touchscreen (615, 625).

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 13 16 1602

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
