(54) **LED light tube assembly with replaceable circuit board**

(57) An LED light tube assembly includes a tube assembly (1) having therein first contacts (311) and second contacts (321); and a head assembly (2) mounted to one end of the tube assembly (1) and having at least two snaps (22) each with a first leg (221) and second leg

(222) extending toward each other to detachably and electrically connect to the first contacts (311) and the second contacts (321) so that detachment of the at least two snaps (22) facilitates separation of the head assembly (2) from the tube assembly (1).

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 12 16 8236

5

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
