Remarks:

A request for re-establishment of rights in respect of the twelve-month period from the date of filing of the first application is pending (Art. 87(1) and Art.122 EPC).

(54) **System and method for data stream fragmentation with scalability**

(57) A method of data conditioning is disclosed that in one aspect can include the steps of receiving a data stream, encoding a time code in the data stream to identify a portion of the data stream corresponding to a content fragment, and separating the identified portion of the data stream to define the content fragment, wherein the content fragment comprises the encoded time code.

FIG. 1
