## (54) Package

(57) Two edge cut portions extending in parallel with a take-out direction are provided in the vicinity of a side of the lower plate where the right flap is provided. The weight scale is taken out by placing the package with a take-out side faced upward, pulling out the tongue strips, opening the right side plate and the right flap, and bending the lower plate along the bending line. An assembled state is illustrated in Fig. 3. Fig. 3 is a bottom view of the package with the right side surface facing the far side of the drawing.

### CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing claims for which payment was due.

Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due and for those claims for which claims fees have been paid, namely claim(s):

No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due.

### LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.

As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.

Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:

None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:

1-3, 6

The present supplementary European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims (Rule 164 (1) EPC).

**LACK OF UNITY OF INVENTION**  
**SHEET B**

Application Number

EP 13 15 5309

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

**1. claims: 1-3, 6**

A package configured to package a commodity product, comprising a upper plate, a lower plate and four side plates, including a take-out side plate, and allow the commodity product to be taken out from a surface of the take-out side plate, wherein at least two edge cut portions extending inward are formed on the upper plate or the lower plate provided with a take-out flap bent inward of the take-out side plate.

---

**2. claims: 4, 5, 7**

A protection material configured to protect a commodity product by covering the commodity product stored in a package formed with two edge cut portions extending in parallel with a take-out direction on a upper plate or a lower plate provided with a take-out flap bent inward of a take-out side plate on one side surface, comprising a finger hook portion.

---

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 13 15 5309

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on. The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
