(54) **A window lining assembly having an improved corner fitting**

(57) The window lining assembly is composed by a window lining (2) and a lining frame (3). The lining frame (3) comprises a number of lining frame pieces (31, 32, 34), and a plurality of corner fittings (5, 6) adapted to provide a joint between adjoining lining frame pieces (31, 32, 34), each corner fitting (5, 6) including a first leg (51)

for connection to a first lining frame piece (31), and a second leg (52) for connection to a second lining frame piece (32), characterized in that the legs (51, 52; 61, 62) of each corner fitting (5, 6) is provided with engagement means providing a snap and/or frictional engagement with the corresponding lining frame piece (31, 32).

**CLAIMS INCURRING FEES**

The present European patent application comprised at the time of filing claims for which payment was due.

- ☐ Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due and for those claims for which claims fees have been paid, namely claim(s):
- ☐ No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due.

**LACK OF UNITY OF INVENTION**

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

- ☒ All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- ☐ As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.
- ☐ Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:
- ☐ None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:
- ☐ The present supplementary European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims (Rule 164 (1) EPC).

**LACK OF UNITY OF INVENTION  
SHEET B**

Application Number  
EP 13 17 6554

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. claims: 2(completely); 1(partially)

window lining with corner fittings, said corner fittings  
providing a snap engagement provided by a resilient lug  
---

2. claims: 3, 4, 6-11(completely); 1(partially)

window lining with corner fittings, said corner fittings  
providing a snap engagement provided by a rotatable clasp  
---

3. claim: 5

window lining with corner fittings, said corner fittings  
providing a snap engagement provided by a bayonet dowel  
---

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 13 17 6554

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.  
The members are as contained in the European Patent Office EDP file on  
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
