### (54) Hose support and watering accessories.

(57) A support (100) for hose (99) and watering accessories comprising a winding drum (3) with end flanges (1, 2) for the containment of the hose, in which one (1) of the two flanges (1, 2) is provided with a pair of upper lateral fins (18), symmetrically protruding one on one side and the other on the other side of said flange (1), provided with hollow seats (19) for housing respective fittings (20) intended for connecting the hose (99) to a water outlet (22) and to an end dispenser (24). Said seats (19) of the fittings are made so as to allow the positioning of seated-like fittings. The front surface of said flange (1) is provided with means (6-8, 10) for attaching and supporting a dispensing gun (24). A retractable lifting handle (16) is provided which can be extracted from the area of the two flanges (1, 2) by partial vertical extraction from a seat (14) formed in said flange (1).

The present search report has been drawn up for all claims					
Place of search	Date of completion of the search	Examiner			
The Hague	16 May 2017	Pussemier, Bart			
CATEGORY OF CITED DOCUMENTS					
X : particularly relevant if taken alone	T : theory or principle underlying the invention				
Y : particularly relevant if combined with another document of the same category	E : earlier patent document, but published on, or after the filing date				
A : technological background	D : document cited in the application				
O : non-written disclosure	L : document cited for other reasons				
P : intermediate document	& : member of the same patent family, corresponding document				

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 13 19 2267

5 This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
