(54) **Medicine dispensing system**

(57) Provided is a medicine dispensing system. The medicine dispensing system includes a medicine box storing station configured to accommodate a plurality of medicine boxes; a medicine box transferring unit for withdrawing each of the medicine boxes accommodated in the medicine box storing station or allowing the withdrawn medicine box to return to the medicine box storing station; and a control unit controlling an operation of the medicine box transferring unit to with-

draw the first medicine box disposed at a first position of the medicine box storing station, based on first dispensed medicine information, to return the withdrawn first medicine box to the second position of the medicine box storing station, and to withdraw the first medicine box disposed at the second position of the medicine box storing station when the first medicine box is withdrawn based on second dispensed medicine information.
