(54) **DOLLY FOR VACUUM CLEANER**

(57) How many people have ever tried to clean the car using the woodpecker accessory? Well washing the car holding the shoulder vacuum cleaner is uncomfortable, especially when you have to clean the bottom parts.

Also think in the house how tiring for the old lady who has to carry on her shoulder the vacuum cleaner in order to use the accessories that require the use of the hose. This is the reason for this invention that allows you to use the vacuum cleaner without putting carrying it on your shoulders, This trolley makes it possible to use the vacuum cleaner in total freedom even when the hose is

hooked. The person who uses it in total freedom is no longer forced to get slung around the vacuum cleaner. You can do it in different colors, materials and shapes, depending on the tastes of the people who buy it.

It can be sold either alone for those who already own a vacuum cleaner, or together with all other accessories. It can be realized also for old models of vacuum cleaners, to increase the targets of buyers. On the trolley there are hooks to insert and keep in order and within reach all the vacuum cleaner accessories.

Fig.3**EP 3 248 525 A1**

Description**[0003]** Describing the parts specifically:**[0001]**

- The present invention relates to all the environments in which a vacuum cleaner with hose is used. 5
- This trolley on wheels will fit perfectly to the body of the vacuum cleaner, simply by inserting it from above.
- The truck can have wheels in a number that can vary depending on your preference. 10
- The design of the carriage which appears in these drawings with a round base, is purely indicative, since in reality it may have any shape, oval, triangular, square, rectangular, pentagonal, hexagonal etc. 15
- The trolley construction material must be robust and reinforced, so that it does not break every time it is placed inside the vacuum cleaner.
- The height of the truck will be that necessary to keep upright vacuum cleaner and prevent tripping and falling. 20
- Once the vacuum cleaner is inserted into the cart, you will hook the hose effortlessly.
- It may also provide wheel locks, so that if we want to, we can block the sliding of the carriage in a certain position on the floor. 25
- It's also possible to provide hooks for the hose or for the various vacuum cleaner accessories keeping everything in order and within reach.
- Once used, the truck can be parked comfortably with all the accessories included in its hooks, so it is also useful to keep all the accessories together and in order. 30
- If desired, you can also make it into recyclable materials. 35
- Perfectly suited for all: young and old
- We can do endless versions, more or less equipped with hooks or external pockets for storing accessories, with more or less wheels, in different shapes and materials and in different colors. 40
- Improve the convenience and safety in the home it is also possible to insert on demand fluorescent stickers for those who are afraid of getting caught at night if by chance was left in the hall.
- Thanks to this carriage it is thus possible to increase the target of people who can buy the vacuum cleaner. 45

1. Part which holds the body of the vacuum machine
2. Body of the vacuum machine
3. Support wings
4. On wheels base trolley.
5. Wheels
6. Flexible hose with attached any accessories such as the woodpecker.

- These drawings are for guidance only, since this cart can be made in multiple versions of different shapes, sizes and colors, however, the cart main feature will be the height of the part of the carriage in which the vacuum cleaner, can be put to keep upright the vacuum cleaner preventing tripping and falling.
- The picture also show that wheels are provided below the trolley, in order to move effortlessly. The number of wheels is indicatively 4, but the number of these can vary depending on the form of the carriage we are going to choose.

Claims

1. you claim that this truck can carry the vacuum cleaner
2. Such a trolley can be sold separately from the vacuum cleaner and can also be sold together with the vacuum cleaner.
3. This truck can be built also compatible with the old vacuum cleaner Kobold, to be sold to old customers. 35
4. The cart can vary in shape, color, size and the number of wheels, to better adapt to the various forms of the vacuum cleaner body.
5. This trolley on wheels will perfectly fit to the body of the vacuum cleaner, simply inserting it from above.
6. Although in the drawings presented there is a carriage base with a round shape, the basket may vary in 'aesthetic assuming different forms
7. you can insert hooks for the various accessories, to get everything in order and with in reach. 50
8. Under the base of the trolley there are wheels whose number can vary depending on the shape that it is decided to give to the base of the cart and also depending on the preferences.
9. It is possible to make trolleys of different shape, to ensure that in addition to the usefulness, people will buy it also for the aesthetics: with a triangular shape, 55

DESCRIPTION OF THE DRAWINGS**[0002]**

- Picture n. 1 shows the three-dimensional view of the carriage.
- Picture n. 2 shows the vacuum cleaner inserted into the cart from above. 55
- Picture n. 3 shows the orthogonal projection of the carriage to show either side characteristics, viewed from above.

square, pentagonal, hexagonal and so on. But be careful because the number of wheels and forms is purely indicative. Moreover, this cart can also be made in a circle or ellipse shape, with the number of wheels that will vary depending on the forms.

5

10. These wheels can be pivoting and may be provided with wheel lock brakes.

11. This trolley can also be made on different colors.

10

12. The trolley construction material must be robust and reinforced, so that it does not break every time it is placed inside the vacuum cleaner.

15

13. Such a trolley can be made of any material, including recyclable ones.

14. This trolley can also be equipped with fluorescent stickers to make it visible in the dark.
