(54) **DART HOLDER PROVIDING A GRIP POSITION ON A DART**

(57) A dart holder (10) comprising:
- first positioning means (1)
- second positioning (2) means connectable to the first positioning means
- holding means (3) for holding optionally at least the tip and/or part of the barrel of a dart in a settled position in at least one of the first and second positioning means (1) such that the barrel of said dart is accessible for being grabbed by a user's hand;
- a first landing area (4) on the first positioning means (1) and a second landing area (5) on the second positioning means (2) arranged in respect to the holding means (3) such that said landing areas (4, 5) provide a reference to at least part of the hand for grabbing the barrel at a target position.
