(54) **AIRCRAFT SEAT DEPLOYABLE BRIDGE TABLE, MOUNTING PROVISIONS, AND STORAGE PROVISIONS**

(57) A seat assembly including a first armrest (200) having a first lateral side and a first mounting panel pivotally attached to the first lateral side, and a second armrest having a second lateral side facing the first armrest, and a second mounting panel pivotally attached to the second lateral side. The mounting panels are pivotable between stowed positions and deployed positions. A bridge table (100) is removably positionable between the first and second armrests and has a first lateral side for mounting upon the first mounting panel and a second lateral side for mounting upon the second mounting panel, each lateral side including a respective engagement feature for releasably engaging one of the mounting panels. When not in use, the bridge table stores within a box (400) attachable below a seat position of the seat assembly.
