(54) PACKED INSTALLATION KIT COMPRISING AN INSTALLATION ASSEMBLY WITH SUPPORT BEAMS AS COMPONENTS

(57) A packed installation kit for use in the installation of a roof window system comprising two window units, the installation kit comprising components of a second set of installation assemblies comprises two support beams (31, 32) which are accommodated side-by-side in a second packaging (103) comprising a rectangular telescopic tube packaging having two parts (1031, 1032)

of corrugated cardboard, wherein the total length of the second packaging as defined by the sum of the length of the first part and the length of the second part exceeds the length of the components such that an overlap between the second part is provided in a supply condition of the installation kit.

ANNEX TO THE EUROPEAN SEARCH REPORT ON EUROPEAN PATENT APPLICATION NO.

EP 22 17 2945

5

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
