(54) DISTRIBUTION OF MULTIPLE APPLICATION VERSIONS

(57) Provided herein is a method comprising: receiving, at a computer system, a request to an application marketplace from a first computing device for information about an application, wherein multiple versions of the application have been published on the application marketplace, each of the multiple versions of the application associated with one of a plurality of device types; in response to receiving the request, identifying a device type of the first computing device among the plurality of device types; identifying, by the computer system, a version of

the application from the multiple versions of the application, the identifying including analyzing metadata of the multiple versions of the application and identifying a version of the application having metadata that specifies the identified device type; and in response to identifying the version of the application, providing for display the selected version of the application for download by the first computing device. A computer program product and a computing system are also provided.

ANNEX TO THE EUROPEAN SEARCH REPORT ON EUROPEAN PATENT APPLICATION NO.

EP 24 17 7805

5

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
